**PRIORITIES**

- List your assignments by due date, time needed, or any other factor
- Start with your #1 assignments; if you get stuck, work on the other ones as a preventive study break!

**HOW TO CRAM**

ONE WORD: DON'T. Cramming will stress you out and doesn't help in the long run. Instead, start studying earlier.

**STUDYING: HOW-TOs, ADVICE, & TIPS**

**in a typical hour of studying...**

- actual productive studying
- not studying but still productive
- study breaks (stretch, walk, etc)

**What Worked for me**

If there's a big assignment/exam, get started early! Don't wait until last minute. If you have questions, or don't understand something, email your professor! He'll show that you care about the class and have a good impression. Don't worry if you don't get something the first time you try it — some of my best study tips I learned to get right!

**EXTRA RESOURCES!**

Watch Khan Academy, Crash Course (youtubers), Sparknotes, etc. You can always ask other people for help, too!

Try to think of mistakes not as failures, but as chances to learn!

**STUDYING TIMELINE**

- day 1: you learn what's going to be in the test
- day 2: review your notes. If you really make time, study guides!
- day 3: take over notes!
- 2 days before exam: take over your notes, double-check any other resources you can find
- the night before: REHEARSE your notes, study guide before you go to sleep (try to do it!)
- TEST DAY: you will be great! Think in your knowledge, and believe in yourself! you **WILL** get this!!
