WARNING
Improper installation, adjustment, servicing, or maintenance can cause property damage, personal injury or loss of life. Installation and servicing must be performed by a licensed professional installer (or technician), who will sign for the gas supply.

NOTICE
A thermostat is not included and must be ordered separately.
• The Lennox iComfort Touch™ thermostat must be used in conjunction with applications.
• In non-communicating applications, the Lennox iComfort™ 7000 thermostat may be used, as well as other non-communicating thermostats.
In all cases, setup is critical for safe and proper system operation.
Read wiring for both communicating and non-communicating applications in the brand's diagrams, which begin on Page 23.

CAUTION
As with any residential equipment, personal injury can result from contact with a sharp, heated metal surface. Use caution when you handle these components.
This is a safety and protection manual to be printed. When you see the safety symbols or words, be alert to the potential for personal injury or death.
