

# Download File PDF Microeconomics Case Fair Solution Problem 6

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

1A.4 (a) The relationship between the price of turkeys and the quantity of turkeys sold by Godfrey's Farm-Range Gardens is a positive relationship because as the price increases, the quantity sold increases.

(b) The slope of the line is equal to 0.4.

Quantity

1A.5. At point A, the tangent line runs through the points  $(p = 34, q = 20)$  and  $(p = 24, q = 45)$ . The slope is therefore  $(34 - 24) / (20 - 45) = 10 / -25 = -0.4$ .  
At point B, the tangent line runs through the points  $(p = 12, q = 90)$  and  $(p = 8, q = 140)$ . The slope is therefore  $(12 - 8) / (90 - 140) = 4 / -50 = -0.08$ .

## CHAPTER 2

1.1 Answers will vary, but should include:

- the value of alternative uses of time (studying for final exams, other forms of leisure)
- the value of alternative uses of time (other forms of leisure or exercise)
- the value of other goods and services that the government could have purchased with the money used to purchase the land for the sanctuary, or the value of the goods and services that taxpayers could have purchased with the tax revenue used to purchase the sanctuary
- the value of the goods and services that the government could have purchased with the money used to subsidize the airline
